## Cutting the Corners

IN discussing the Standard Oil Company, a well-known lawyer said: "The underlying causes of whatever trouble this organization may have had are to be found in its efficiency and its advanced methods, which make competition difficult. As a producer and distributor of petroleum products the Standard Oil Company leads the world."

It is a matter of pride to those responsible to the 4649 stockholders that the Standard Oil Company (Indiana) has been able to so operate its business as to insure a maximum production of useful products at a minimum of cost, and it has always been the policy of the Company to sell its products to the consumer at a minimum price.

During the past five years when the industries of the world have been disorganized by war, and the cost of production has been increased tremendously, the Standard Oil Company (Indiana) by reason of its advanced methods has been able to keep the price of petroleum products at so low a point that the people of America can afford to use the output of the Company in ever increasing quantities, while elsewhere in the world only the wealthy can enjoy the comforts of these commodities.

This condition has been brought about by largely increased facilities, and by careful conservation of raw materials.

Thus, in spite of tremendous increases in cost of crude oil and labor, the Standard Oil Company (Indiana) has been able to fulfill its obligations in a manner satisfactory and beneficial to the stockholder, the employee and the public.

## U. S. ON HIGH SEAS

By 1920 Our Tonnage Will Almost Equal England's.

Senator Jones Outlines Shipbuilding Policies.

GREAT FLEET 18,000,000 TONS

Two Nations Will Control Two-Thirds of World.

Bill Plans for Mighty U. S. Marine Corporation.

Washington, Nov. 3.—Predictions that ships flying the American flag will almost equal the tonnage of Great Britain by the end of 1920, were made in the senate today by Senator Jones, Republican of Washington, chairman of the senate commerce committee, in introducing his bill proposing alternative plans for a permanent shipping policy. Both bills were referred to the commerce committee for future consideration.

With prospective completion of the government's war shipbuilding program by December 31, 1920, Senator Jones said, the United States including coastwise vessels, will have a mighty fleet of about 18,000,000 tons, nearly that of Great Britain and he added, the two nations will control about two-thirds of the world's tonnage.

"We do not desire and it is not our purpose to drive other nations off the sea," said Senator Jones, "but we do

want to and we ought to do at least our proportionate part of our own and the world's carrying trade, so that our commerce shall have a fair chance in the world's markets and that we may hereafter be fully prepared for any emergency."

To Be Government Owned.

Regarding the government's future shipping policy, Senator Jones said about eight million of the twelve million tons under the American flag in foreign trade will be government owned.

"We may differ about government ownership," he said, "but that can be no issue here. The government owns these ships whether we will or no. We must not allow private parties to take the cream of this shipping and let the government hold the balance to dispose of in a great sacrifice. Grant that government ownership should end as soon as may be, it must be brought about as nearly as may be without unnecessary sacrifice."

In explanation of his bill to create a mighty marine corporation under government control to operate the government fleet for not more than thirty years, but without competing with private established lines, Senator Jones said in conclusion:

"What I propose is to divorce the shipping board entirely from building, selling or operating ships and allow it to do the things it was created to do, and create a corporation separate and independent of it to operate, maintain and dispose of our ships in such a way as to give us an adequate mighty marine on a permanent basis."

ELECTIONS IN 4 STATES

Presidential Timber May Emerge From Voting Tuesday.

New York, Nov. 3.—The stage was set today in four states and several municipalities and judicial districts for elections tomorrow that will provide dress rehearsals for next year's presidential, senatorial, congressional and state contests.

The part labor and socialism, as well as the "new vote"—that of women and first-voting males—will play in the trend of political thought will be watched with interest.

Chief among the political issues is the Massachusetts gubernatorial contest. In that state Governor Calvin Coolidge, Republican, is running for re-election against Richard H. Long, Democrat, a shoe manufacturer, who was also Coolidge's opponent at the last election. Coolidge is making the race as a "law and order" candidate, his supporters using his record in fighting Boston's police strikers as a main argument for his election. He is being fought by the Central Labor union of Boston.

In New Jersey, Edward I. Edwards, Democratic candidate, is running against Newton A. K. Bugbee, Republican, for the governorship. The issue in the Jersey contest is a "wet" and "dry" one. Edwards being in favor of a liberal "wet" program, while Bugbee has been forced to assume the "dry" end of the argument.

In Kentucky Gov. James D. Black, Democrat, is engaged in a red hot contest against Edwin B. Morrow, Republican. Morrow is a former Democratic to a decided degree. Morrow lost the election four years ago to A. O. Stanley, now senator, by only 471 votes.

Harry Niles, Republican, is running against Albert C. Ritchie, Democrat, for the governorship of Maryland. Confidence in a Republican victory is based on a swing in the Baltimore elections last May, when the normally Democratic by 36,000,000, went Republican by 10,000.

In New York, tomorrow's contest will be mainly judicial. The issue is being fought between Tammany and anti-Tammany candidates. The fight started when Charles T. Murphy, Tammany leader, refused to sanction re-nomination of Supreme Court Justice Newburger.

OHIO TO VOTE ON LIQUOR

Both Wets and Drys Claim Victory at Tuesday Election.

Columbus, O., Nov. 3.—Spokesmen for both the wets and drys today made pre-election claims to victory at tomorrow's election, at which Ohioans will vote upon repeal of state-wide prohibition and other prohibition measures.

Much interest centers in the Ohio election tomorrow, as this is the only state voting upon state-wide prohibition this fall. To date Ohio is the biggest state having voted prohibition. The effort to repeal prohibition adopted by the voters a year ago by a 25,000 majority comes after less than six months of the dry regime as prohibition did not go into effect until May 27, this year.

### EAST SIDE NOTES

Notes and personals from East Side by Frances Jones. Telephone 3500.

Mr. and Mrs. Jesse Smelser will change their residence this week from 405 Reno avenue to the home which they have purchased at 1202 Clay street.

The Grematis club gave a Halloween party Saturday evening at the home of Mr. and Mrs. William Starr. The guests were: Mrs. H. M. McVickar of Hutchinson, Kan., Mr. and Mrs. Harry Starr, Mrs. D. E. Young, Mr. and Mrs. L. E. Reynolds, Mr. and Mrs. E. E. Karg, Mrs. Cary Asher of Fresno, Calif., who has been visiting Mr. and Mrs. C. E. Tewel has gone to Chicago to visit Mr. and Mrs. H. D. Wilson.

Mrs. Bert Egan and two children, Brandon street, left Monday afternoon to visit relatives at Onaga, Kan. Mrs. Egan will go to Clay Center the latter part of the week to visit her little daughter Marian who is spending some time with her grandparents.

De Camp, Mrs. George F. Hill, Mrs. Fred Burke, Mrs. James W. Johnson, Mrs. Rose Johnson. Mrs. Blakely also leaves three sons, Maynard T. Blakely of Adel, Iowa, Walter A. Blakely of Wichita, Kan., and Harold Blakely of Topeka. The funeral services were held Monday morning at a local undertaking chapel.

Lynch Negro in Georgia. Macon, Ga., Nov. 3.—Paul Jones, a negro, accused of attacking a white woman near the site of Camp Harris, Sunday afternoon, was lynched by a mob of the same of the same place.

## CONTROL SUGAR IN 1920

Bill Proposing Continuation of Order Is on Senate Calendar.

Washington, Nov. 3.—The bill proposing continuation of federal control over sugar during 1920 was reported today to the senate and placed on the calendar with a view to early action.

In a majority report Senator McNary, Republican, Oregon, author of the bill and chairman of the senate agriculture sub-committee which investigated the sugar shortage, declared "a serious situation will ensue" if the sugar equalization board's control over sugar is discontinued.

Let's in the hands of the committee, the report states, about that about 730,000 tons of Cuban and domestic sugar was available for distribution until January 1 which should meet the needs of the country. The world shortage of sugar was estimated at two million tons over the pre-war average.

## ONLY WAY ASPIRIN SHOULD BE TAKEN

Look for name "Bayer" on tablets and follow directions in package.

The Bayer Company, who introduced Aspirin tell in their careful directions in each package of genuine "Bayer Tablets of Aspirin" that to get best results one or two glasses of water should be drunk after taking tablets. "Bayer Tablets of Aspirin" to be genuine must be marked with the safety "Bayer Cross." Then you are getting the world-famous Aspirin, prescribed by physicians for over eighteen years.

Each unbroken "Bayer" package contains proper directions for Colds, Headache, Toothache, Earache, Neuritis, and for Pain generally.

Handy tin boxes of twelve tablets cost but a few cents. Druggists also sell larger "Bayer" packages. Aspirin is the trade mark of Bayer Manufacturing of Monocetate of Salicylic acid.—Adv.

## "Best Health In Years"—From Internal Baths

Miss Frances Herrod, care of Plunkett-Jarrell Grocery Co., Little Rock, Ark., writes Tyrrel's Hygienic Institute, of New York, as follows: "I am very glad to tell you that I am more than pleased with the results obtained from the use of the 'J. B. L. Cascade.' And am in better health than I have been for years."

This is but one of thousands of the same kind of letters received by Dr. Chas. A. Tyrrel, of New York, the inventor of the "J. B. L. Cascade."

By a purely natural process of properly using warm water, the "J. B. L. Cascade" removes all the poisonous waste from the lower intestine, which physicians agree is the cause of 95% of all human ailments.

Tully-McFarland, in Topeka, have filled an enormous demand for "J. B. L. Cascade" in the past few years and will show and explain it to you on request. An interesting booklet on Internal Bathing—"Why Man of Today Is Only 50% Efficient"—can be obtained at their stores free of any cost.—Adv.

Prices aren't high if you buy right

PRICES of clothes are higher than they were; that's true. Good clothes cost more; but you don't have to pay more than they're worth—not if you buy the right kind.

We have the right kind; high quality, all-wool clothing that will give you long service. It's made by

# Make this a CALIFORNIA Winter

Run away from the snow, the cold and the coal bills.  
Sunshine and bracing air will help repair the wear of work and worry.  
You may live at resort hotels, inland or beside a summer sea. Or occupy your own bungalow.  
En route visit the national parks, national monuments and other winter resorts. See Hawaii, too.  
Ask for information about *Excursion Fares* to certain winter resorts.

"California for the Tourist," and "Hawaii," and other resort booklets, on request. Let the local ticket agent help plan your trip—or apply to the nearest Consolidated Ticket Office—or address nearest Travel Bureau, United States Railroad Administration, 646 Transportation Bldg., Chicago; 141 Liberty St., New York City; 602 Healey Bldg., Atlanta, Ga. Please indicate the places you wish to see en route.

**UNITED STATES RAILROAD ADMINISTRATION**
